

Testimonials

Grunley is committed to supporting small businesses – including disadvantaged, women-owned, HUBZone, and veteran-owned businesses – and creating valid subcontracting opportunities for these firms. I simply cannot overstate the role that the Maryland Washington Minority Companies Association has played in optimizing our small business utilization.

They are results-based people, passionate about their mission and effective at connecting our company with a wealth of qualified disadvantaged, veteran-owned, women-owned, and other small businesses. The increase in participation that we've witnessed since associating with MWMCA has almost been immeasurable! I am very grateful for all they have done to support and enhance Grunley's small business program and look forward to working with Wayne and Pat for years to come.
