

ABOUT US

South River Contractors, Inc. (SRC) is a fast-growing, woman-owned small business specializing in general contracting, construction management and consulting services that can successfully integrate a project's planning, budgeting, design, and construction stages within a culture of safety and environmental integrity. SRC manages and constructs diverse new and renovation projects for commercial, institutional and government facilities, ranging from exterior modernizations to interior build-outs with on-site workforce staffing and expert project management. SRC is based in Washington, DC, with region-wide performance capabilities to deliver top-tier, compliant sustainable solutions for the built environment.
